# Preparation Potentiometric Study Promethazine Hydrochloride

**preparation and potentiometric study of promethazine ...** - preparation and potentiometric study of...n. s. nassory, et al., procedure preparation of ion-pair compound pmh-pt ion-pair was prepared by mixing 50 ml of 0.01 m promethazine-hcl with 50 ml of 0.01 m **promethazine potentiometric membrane sensor for ...** - in this study, a potentiometric liquid membrane sensor for simple and fast determination of promethazine hydrochloride in pharmaceutical formulation and urine was constructed. **ionophore-based potentiometric sensors for the flow ...** - preparation of the promethazine sensor potentiometric pm selective sensors was prepared by dissolving pvc (176.0 mg), plasticising solvent (356.4 mg), ionophore (11.0 mg) and ktpb where appropriate (6.6 mg) in thf (5 ml). **synthesis and potentiometric study of atenolol selective ...** - pharmaceutical preparation and gave a good accuracy. introduction the ion-selective method are widely used for pharmaceutical analysis with advantages of determining sample directly, rapidly and simply. liquid membrane ion-selective electrodes (ise) in particular have much importance for the analysis of pharmaceutical products. the relatively low cost, high simplicity, selectivity and low ... **production and preparation - ejhbj** - promethazine hydrochloride was examined according the requirements of the ph. eur.1 the preparation was stored pro-ected from light. results according to the standard operating procedure, paren-teral promethazine hydrochloride 5% injection was prepared aseptically in the laminar flow cabinet and sterilised by autoclav-ing. the final solution was then submitted to quality control, where a set ... **flow injection analysis for the photometric determination ...** - baghdad science journal vol.10(4)2013 9911 flow injection analysis for the photometric determination of promethazine-hcl in pure and pharmaceutical preparation **curriculum vitae - schrainuniv** - nassory, n.s., s.a. maki, and b.a. al-phalahy, preparation and potentiometric study of promethazine hydrochloride selective electrodes and their use in determining some drugs. **a validated hplc method for separation lddi in ...** - hplc method for separation and determination of promethazine enantiomers 21 during the chromatographic analysis, the following parameters were measured. **issn: 2455-0205 contents list available at jacs directory ...** - journal of advanced electrochemistry 2(1) (2016) 42-44 ... in the present study the selectivity of promethazine electrode was investigated in terms of potentiometric selectivity coefficient calculated by matched potential method (mpm)[14]. according to this method, a specified activity of the primary ion (a) is added to a reference solution and the potential is measured. in a separate ... **oles honchar dnipropeetrovsk national university, 72 ...** - for potentiometric determination of propranolol, as well as to change the resistance of the sensing polyvinylchloride membrane and to improve the detection limit and selectivity of the electrodes ... **int j pharm sci nanotech vol 8; issue 2 international ...** - trefi: simultaneous determination of de xtromethorphan and promethazine in pharmaceutical syrups by rapid hplc method 2829 two new analytical procedures for fast and simul- **barm structure & syllabus for admission batch 2015-16 ...** - barm structure & syllabus for admission batch 2015-16 5thsemester page 1 v semester theory practical code course name hours/ week l/t credit **voltammetric determination of prochlorperazine and ...** - sensors 2003, 3 52 introduction phenothiazines are among the most widely used drugs in the treatment of mental disease. they constitute one of the largest chemical classes in the official compendia. **quantitative comparison between oxytocin and four related ...** - 100 mg, intramuscularly) often together with promethazine (50 mg, intramuscularly) 30 to 60 min before tocography started. uterine contractility was recorded by a strain-gauge toco-
